# LOOP COLLECTION

The Loop collection is light to handle and to move around, which has its advantages as furniture can be moved in line with the sun. The design gives a light and airy look to a verandah and is also unbelievably comfortable – air can circulate through the tautly strung construction. Within the Loop range there is also a lounge chair, footrest, coffee table, side table, sofa and chaise longue which are simple with a modern edge.

# OUTDOOR LLOYD LOOM

---

The famous Lloyd Loom-weave is a combination of steel and paper, its origins going back to the United States of the beginning of the 20th Century. Lloyd Loom is extremely strong, and at the same time wonderfully tactile and easy to maintain by simply wiping it down with a cloth. Today, Vincent Sheppard has taken this unique material to the next level: the incredibly strong and flexible material is coated with latex to enable the furniture to be used outdoors. So no need to put it inside after enjoying a nice summer day, though it is preferable to keep it indoors during cold and rainy conditions.

# VINCENT'S GARDEN PROJECTS

---

Vincent's Garden's beautiful furniture is used worldwide in a variety of projects, be it private houses or public places like restaurants, golf clubs, bars, spas or hotels. It is extremely popular for dining and lounging, outdoors as well as indoors. Let yourself be carried away by the stunning pictures of sunny marinas, delightful terraces, dreamy beaches and cosy terraces on the following pages. And even more important: let yourself be inspired to make your own terrace or garden a dream come true. It's perfectly feasible!

The Vincent Sheppard Outdoor Resin collection is made of polyethylene fiber and a weather resistant frame.

The resin collection can be left outside throughout the whole year, come rain or shine!
